

Title: HR Analytics Dashboard

1. Employee Attrition Analysis Using Microsoft Excel

- **Prepared By:**
Sudipa Bhakta
- **Tools Used:**
Microsoft Excel
Pivot Tables
Pivot Charts
Slicers
Data Visualization

2. Business Problem

The HR department wanted to understand the factors contributing to employee attrition and identify workforce trends that impact employee retention, satisfaction, and organizational performance.

The objective was to create an interactive dashboard that helps management monitor key workforce metrics and make data-driven HR decisions.

3. Dataset Description

Dataset Overview

The dataset contains employee demographic, compensation, performance, satisfaction, and career progression information.

Dataset Features

Category	Variables
Employee Information	Employee Number, Age, Gender, Marital Status
Job Information	Department, Job Role, Business Travel
Compensation	Daily Rate, Hourly Rate, Monthly Income
Satisfaction Metrics	Job Satisfaction, Environment Satisfaction, Relationship Satisfaction
Performance	Performance Rating, Training Times Last Year
Career Progression	Years At Company, Years in Current Role, Years Since Last Promotion
Retention	Attrition, Current Employee

Key Metrics

Total Employees: 940

Current Employees: 814

Attrition Count: 126

Attrition Rate: 13.40%

Average Age: 37 Years

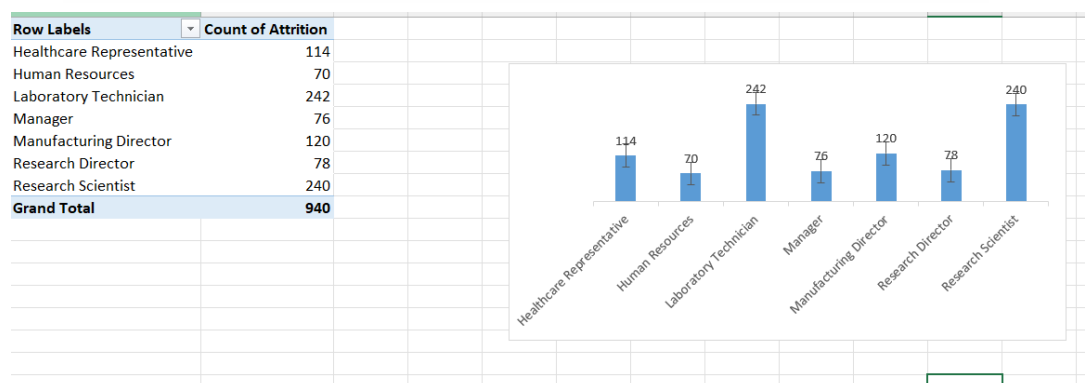

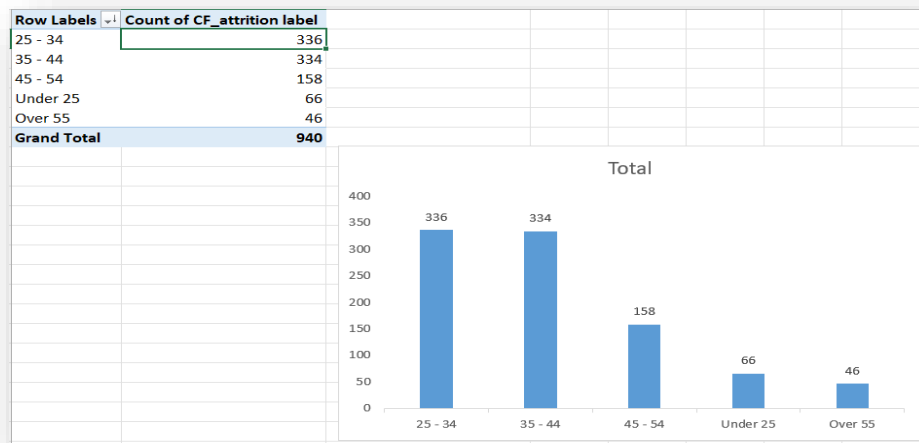

4. Business Questions

- 1) What is the overall attrition rate of employees?
- 2) Which departments and job roles experience the highest attrition?
- 3) How does employee age and gender distribution affect attrition?
- 4) How does job satisfaction influence employee retention?
- 5) Does compensation impact employee attrition?
- 6) How do career growth factors affect employee retention?

5. Dashboard Features

The dashboard enables users to analyse:

- Employee Attrition Rate
- Department-wise Attrition
- Job Role Analysis
- Gender Distribution
- Marital Status Analysis
- Education-wise Attrition
- Age Group Analysis
- Interactive Filtering using Slicers

6. Key Findings

Workforce Summary

- Total workforce consists of 940 employees.
- Current active employees are 814.
- Overall attrition rate is 13.40%.

Gender Analysis

- Male employees: 566
- Female employees: 374

Age Analysis

- Employees aged 25–34 form the largest workforce segment (336 employees).
- Employees aged 35–44 are the second-largest group (334 employees).

Marital Status Analysis

- Married employees account for 47.45%.
- Single employees account for 29.36%.
- Divorced employees account for 23.19%.

Job Role Analysis

- Research Scientist and Laboratory roles represent the largest employee groups.
- Attrition is concentrated in operational and research-related functions.

7. Recommendations

- 1) Focus retention strategies on employees aged 25–44 years.
- 2) Conduct exit interviews in departments experiencing higher attrition.
- 3) Improve employee engagement and satisfaction initiatives.
- 4) Review compensation and career progression policies.
- 5) Increase training and development opportunities to support employee growth.
